ARASTONE is a company dedicated to the production and sale of alabaster **for 3 generations.**

We have our own quarries and operations, which together with our industrial facilities, allow us to carry out all types of transformations, complying with the deadlines established for the supply of finished pieces, **as we have demonstrated in the different large-scale projects** we have carried out to date.

The size of our quarries allows us to extract **different types of stone**, which is why our offer includes the possibility of **supplying different varieties of stone.**

The alabaster that we sell comes from **our own quarries and operations.**

ALABASTER TYPES

In **ARASTONE** we have several types of alabaster specially extracted for different commercial and artistic uses.

At present, we commercialize 3 models of alabaster:

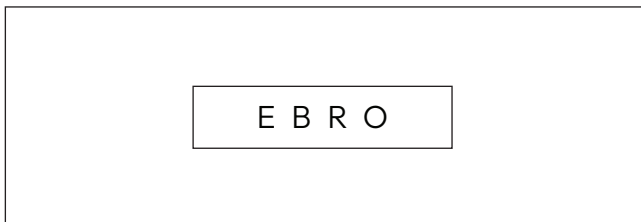

Z A I D A

ZAIDA alabaster stands out for its excellent ice white translucency with reddish earth tone veining. This exclusive ARASTONE variety is available in maximum sizes of 120 x 60 cm.

S O T E N A L

SOTENAL alabaster is known for its light transparency in gray color with veining in earth and gray tones. The Sotenal variety is available in maximum sizes of 100 x 80 cm.

Alabaster pieces specially designed for **architecture, interior design** and other **indoor** and **outdoor** applications.

Tiles (cut to size)

In **ARASTONE** we have **different formats** that adapt to any surface according to the type of project and its application. Taking into account the design, size, color, thickness, shape and technical specifications.

The great translucency of some of our varieties gives us the possibility of using alabaster as **glass in doors, windows and cladding for ceilings or walls**.

It allows interior and exterior glazing with minimum thicknesses of 7mm (depending on sizes).

Its combination with multiple materials produces an **excellent aesthetic effect**.

P R O D U C T S

Alabaster pieces specially designed for **architecture, interior design** and other **indoor** and **outdoor** applications.

Blocks or bowls

We supply alabaster stones **for sculpture or for further processing**. We have **different formats more or less elaborated** depending on the customer's demands.

Alabaster pieces specially designed for **architecture, interior design** and other **indoor** and **outdoor** applications.

Bricks

The alabaster brick wall has a **triple function**. Firstly, as an **enclosure**; secondly, and due to its translucency, it allows **interior lighting with natural light**; and as a third function, the **irradiation of light towards the exterior with artificial light**.
